**MEDICAL DAYS**  
6<sup>th</sup> edition  
28<sup>th</sup> -30<sup>th</sup> July, 2011  
Romania

Dear colleagues,

It is my pleasure to invite you to the 6th edition of the Medical Days of Moinești Municipal Emergency Hospital, which will be held between the 28th-30th of July, 2011, in Moinești and Slănic Moldova.

The scientific agenda will touch upon hot topics in the therapy and diagnostic field, with particular emphasis on medical and surgical specialties. This year, the presentations and practical demonstrations will focus on two themes: the integrated approach of acute myocardial infarction and the spectrum of major complications after laparoscopic surgery. Other subjects will be addressed, in addition to these the current topics of discussion in the medical community worldwide.

The optimization of the management of acute myocardial infarction cases (STEMI) can reduce the interval between the patient's admission to hospital and the application of the modern revascularization technique, known as Door-to-Balloon interval, thus reducing mortality from this condition. At the same time, studying the greatly debated spectrum of major complications, arising after laparoscopic interventions is beneficial, especially since minimally invasive surgery has become a frequent alternative to classic surgical procedures widely employed in the last years.

Experts from Romania and other countries will gather in Moinești in order to share their experiences. Presentations, papers, case studies, and oral discussions will be the main methods of communication. Moreover, demonstration surgeries will be performed which will be transmitted live in the conference rooms through an innovative video system.

The conference will facilitate the dialogue between specialist physicians, residents, nurses, and managers. Shared experiences, open discussions and participations in practical demonstrations will allow participants to better understand the challenges that can appear in their areas and to become better prepared to overcome these challenges.

I am convinced that the Medical Days of Moinești Municipal Emergency Hospital will be a success. I look forward to meeting all of you.

On behalf of the organizing committee,  
Dr. Adrian Cotârleț,  
Manager SMU Moinești

EVENT ORGANIZED UNDER PATRONAGE OF

## THURSDAY, JULY 28 - MOINEȘTI NURSES DAY

**8:00 – 13:00** – Courses offered by the Romanian Order of Nurses

**13:00 – 14:00** – Break

**14:00 – 18:00** – Scientific sessions
