We are pleased to invite you to the 19th edition of the National Conference "Medical Days of the Moinești Municipal Emergency Hospital", entitled: "Interdisciplinary dialogue of technology medical technology and humanity - benefit for today's patient".

Included in the annual agenda of medical events of our hospital, the event will take place between 11-13th July 2024 and is intended to be an excellent opportunity to find out the latest news from the field, to take part in interactive discussions with colleagues and specialists in the field, and also to expose the concerns, performance standards, mission, and values of Moinești medicine.

The conference is organized in sections and scientific sessions, aimed by medics of different medical specialities, physiotherapists, dieticians, and nurses, thus offering you during the 3 days the opportunity for a complex and interesting manifestation, centered on the dialogue of experts in the medical field - the mentors who have influenced our professional development.

This year, the conference aims to bring a breath of fresh air by amplifying and substantiating new concepts applied in modern medicine, as a benefit for today's patients. These topics will be debated at round tables, lectures, workshops, interactive sessions, and live transmissions.

We are looking forward to welcoming you to this special meeting!

With kind regards,
Prof. Univ. Dr.

Adrian Cotârlet

Manager,
Municipal Emergency Hospital Moinești
